Children's Center

Mission Statement

Our mission is to provide a safe and conflict free environment for children to have access to both parents through visitation exchange, supervised visitation and parent education classes in order to improve family relationships in the Fulton County area.

Intake interviews will be completed prior to scheduling visitation exchange, supervised visits or parent education classes. The intakes will be completed with each individual parent prior to the start of services.

Services Offered:

Visitation Exchange....The Children's Center is a safe haven for children and parents. The Center is designed to be an unbiased, objective and balanced environment to assist families by providing a neutral site for visitation exchange.

Supervised Visitations....Many families are ordered by the court or social service agencies to have supervised visitation. The Children's Center will provide supervised visitations.

Parent Education....The Children's Center will provide parent education classes. Classes will have a special emphasis on encouraging parents to set aside their differences and develop healthy communication for the best interest of their children.

Scheduling

Parents and or assisting agencies need to call the center to schedule dates and times for visitation exchange, supervised visits and or parenting classes. Dates and times of all services will be scheduled after initial intakes are completed. Supervised visits will be limited to a maximum of two (2) hours unless otherwise arranged with the Center staff.

Fees

There will be a fee for visitation exchange and supervised visitations. The fee will be set on a sliding scale according to each parent's income. Please call 309-3381316 for more information about the fees. There will be a one (1) time fee for the parenting classes.
